Our two-fold business model is based on a unique results-oriented structure which allows us to assist your company's growth efforts on multiple levels. Primarily, we work closely with our clients to provide IP support on an international level. Secondarily, we support in-house legal counsel on- and/or off-site, temporarily and/or permanently. We work in the background so you can meet your client's needs in the foreground.

The combined experience of our staff and of-counsel talent provides you a foundation of exciting success stories throughout each of the various intellectual property channels. Multiple First Office Action Allowances, meeting stringent ITC e-discovery deadlines, and identifying patent concepts on which lucrative licensing deals are based are merely the teaser headlines in our history. These headlines represent only an inkling of our multitude of success stories. Our firm welcomes you to become a part of our history and would be honored to share in your company's history, as well.
